

Remarks/Arguments:

The above Amendments and these Remarks are in reply to the Office Action mailed April 11, 2007.

Claims 1-64 are rejected.

Claims 1, 17, 32, 38 and 64 are provisionally rejected on the ground of nonstatutory double patenting over claims 7, 24, 40, 57, and 68 of copending Application No. 10/786,742. This is a provisional double patenting rejection since the conflicting claims have not yet been patented

Enclosed with this response is a terminal disclaimer for that application.

Claim 64 is rejected under 35 U.S.C. 101.

Claim 64 has been amended to be a computer readable storage medium claim.

Claims 1, 2, 8, 9, 12-18, 24, 27-33, 39, 40, 43-49, 55, 56, 59-64 are rejected under 35 U.S.C. 102(e) as being anticipated by Anuff et al. (U.S. Publication No. 2002/0029296).

Claims 3-5, 10, 19-21, 25, 34-36, 41, 50-52 and 57 are rejected under 35 U.S.C. 103(a) as being unpatentable over Anuff et al (U.S. Publication No. 2002/0029296) in view of Sollenberger et al. (U.S. Publication No. 2002/0152279).

The independent claims 1, 17, 32, 48 and 64 have been amended to include the feature that “the context sensitive editor is a pane that allows for the editing of a selected portal or portal resource, the pane displaying different editable elements based on the selected portal or portal resource”. This change has been made to more clearly distinguish Anuff. In Anuff, a portal context is used to contain information shared between portal resources. The portal context of Anuff is not related to a context-sensitive editor.

For the above reasons, the cited prior art does not produce the claimed invention alone or in combination.

The Commissioner is authorized to charge any underpayment or credit any overpayment to Deposit Account No. 06-1325 for any matter in connection with this response, including any fee for extension of time, which may be required.

Respectfully submitted,
